

How to Put Out Trash -Basic Rules-

Tokai Village aims to support an eco-conscious society.

Optimal waste disposal requires

- Clean, correctly separated recyclables
- Reduction of waste
- Utilization of resources

We ask your cooperation in separating trash for collection, to make the most of limited resources.

《Waste disposal locations》

[Trash collection sites]

Trash collection sites are maintained by each local neighborhood

When you don't know how to put out trash, please ask your neighbors.

Please put out trash at your designated site.

(Trash and recyclables are collected in separate locations. Do not put recyclables out with the trash.)

[Recyclables collection sites]

Recyclables collection sites are set up only for recyclables and managed by each residents' association.

(The collection frequency is different in each residents' association.)

《Trash collection days》

Please consult the "Recyclables/Trash Collection Schedule."

If you don't have a schedule list, you can get one from the Clean Center, Village Office General Information Desk, Environmental Policy Section, or any community center.

《Trash collection times》

Please put out trash by 8:30 a.m. on the scheduled day.

(Recyclables are collected from 7:00 a.m. to 8:30 a.m. at designated recyclable collection sites.)

《Maximum quantity》

The maximum limit is 50kg per household per collection day.

Heavy waste that exceeds 50kg should be brought in directly to either Tokai Village Clean Center or Hitachinaka/Tokai Clean Center (see page 11)

(For more information please contact the Clean Center.)
